TRAINING CURRICULUM

In addition to the standard training program, beginning with the Fall 2016 training sessions, Condux International will offer an 'Industry Basics' class for those with limited experience in the power and/or telecom markets. While primarily focused on our channel partners - Manufacturer's Reps and Condux Distributors - anyone that needs an introductory course is welcome. During this classroom session, attendees will gain familiarity with cable, conduit, handholes, manholes, pedestals, etc.

INDUSTRY BASICS (DAY ONE)

- Applications for Fiber Optic Cable
- Introduction to Installation Types – Aerial, Innerduct, Microduct, Direct Bury, FTTx, etc.
- Basic Fiber & Duct Installation Overview
- Duct Types – Traditional Conduit, Innerduct & Microduct
- Entry Points – Pedestals, Handholes, Manholes, etc.
- Basic Fiber Composition
- Industry Terminology

TELECOM DAY (DAY TWO - SEPTEMBER, DAY THREE - MAY)

Focused on Telecom installation concepts and equipment featuring both classroom and hands-on training, each trainee will have the opportunity to run our equipment and actually install fiber into duct.

- Gulfstream® Fiber Blower Set Up & Operation
- Fiber Puller Set Up & Operation
- Pressure Testing
- Crash Testing
- Coupler Types & Applications
- Any New Product Introductions

POWER DAY (DAY THREE - SEPTEMBER, DAY TWO - MAY)

Focused on Power installation concepts and equipment featuring both classroom and hands-on training, each trainee will have the opportunity to run our equipment and actually install both power cable and pull tape/rope into duct.

- CableGlider Cable Pullers
- *Blue Ox® Puller
- *WDR505® Puller
- *APS75 Puller
- Winchline Blower
- Duct Rodders
- Pulling Swivels
- Directional Drilling Swivels
- Reusable Power Pulling Eyes & Grips

*Subject to availability at time of training. If you require training on a specific piece of equipment, please advise Condux upon registering and we’ll make every attempt to accommodate your needs.

ATTENDEE REQUIREMENTS

When preparing for the trip, attendees should consider that much of the training will be conducted outdoors. As training will be conducted around industrial equipment on potentially uneven surfaces, it’s recommended that work boots be worn. Safety glasses will be provided; however, sunglasses for the outdoor sessions would be beneficial.

Be certain to check the forecast and bring the proper, comfortable clothing. Our indoor training center is kept cool and comfortable, while Mother Nature will keep us guessing with the weather she provides!
